WORK EXPERIENCE

IT Operations Intern (OJT)
Concentrix Philippines Nuvali, Sta. Rosa, Laguna | (600 Hours) January 2025 – April 2025

- Diagnosed and resolved 15–30+ hardware and software issues weekly for a site of 400–500 employees, ensuring minimal downtime and operational continuity.
- Led troubleshooting efforts among 13 interns during graveyard shifts, mentoring peers and reducing escalation of support tickets to senior staff.
- Configured and deployed workstations by installing bootable operating systems using Rufus and KillDisk and assembling physical components, accelerating equipment readiness for new hires.
- Managed user accounts and access permissions via Active Directory and Microsoft 365, maintaining secure and efficient employee onboarding processes.
- Provided remote technical support through Remote Desktop Protocol, diagnosing and resolving software and connectivity issues to restore employee productivity.
- Selected by the IT Operations head to handle critical, high-priority tasks over other interns, demonstrating reliability and technical competency.
- Coordinated a charity PC refurbishment project, processing 1,200 hard disks and 300 PCs for donation to underserved students by sorting, testing, wiping (KillDisk), and installing Windows 10.
- Devised an efficient batch-processing workflow with a 4-person team, utilizing 25 PCs for simultaneous disk wiping and 20 Rufus bootable drives for rapid OS deployment, significantly accelerating project completion.

Merchandising Business Unit (MBU) Staff
SaveMore / Hypermarket Tartaria, Silang, Cavite | October 2021 – February 2022

- Managed inventory of appliances and non-food items, conducting regular counts and coordinating reorders to prevent stock-outs.
- Designed planogram displays and assisted customers with product inquiries, supporting store sales and organized merchandising.

Front Desk Staff
Whitewoods Hotel Puting Kahoy, Silang, Cavite | May 2020 – November 2020

- Managed front desk operations independently during solo graveyard shifts, handling check-ins/outs, reservations, payments, and guest complaints for a 20–30 room hotel.
- Coordinated with housekeeping and maintenance teams to resolve guest requests, ensuring prompt service and high satisfaction.

Manual Operator
Pibu Cosmetics Inc. Hoyo, Silang, Cavite | May 2020 – November 2020

- Facilitated recruitment assessment sessions for 20–40 applicants daily in an English-only environment, ensuring smooth and efficient evaluation processes.
- Organized assessment materials, led group activities, and maintained accurate applicant records through systematic data entry.

EDUCATION & ACHIEVEMENTS

Bachelor of Science in Information Technology (BSIT)
St. Vincent College of Cabuyao, Laguna | Graduated May 2026

- Special Award: **IT Innovation Award**
- Certificate of Achievement — **Concentrix (Outstanding and Excellent Performance during Internship)**
- SWEP Evaluation: **99% — Recommended for Employment**

TECHNICAL SKILLS

Languages & Frameworks:
JavaScript, TypeScript, React, Next.js, Vite, HTML/CSS

Databases & Backend:
Supabase, MongoDB, MySQL

IT Tools:
Active Directory, Microsoft 365, Remote Desktop (RDP), KillDisk, Rufus, SolvNow (Ticketing)

Productivity:
Microsoft Office Suite, Google Workspace

AI & Development Tools:
AI-Assisted Development (Claude, Cursor, Chatgpt, Gemini, Antigravity IDE), NotebookLM, Autonomous Agents (OpenClaw, Antigravity 2.0)

PROJECTS

Thesis Project
St. Vincent College of Cabuyao, Laguna | 2025 - 2026

- Built a real-time workforce exit application and feedback monitoring system using Next.js, Supabase, and Resend that replaced a manual 40-hour/month paper-based process for 4,800 exit interview forms.
- Implemented Row-Level Security (RLS) policies in Supabase to protect personal employee data, ensuring role-based access control for employees, HR interviewers, and leads.
- Designed a hybrid verification workflow combining digital form submissions with face-to-face HR validation to ensure data integrity before records are sealed.

Streak Peak
Personal Project (In Development)

Developing a full-stack productivity app (habits, tasks, mood tracking, finance, focus timer) using Next.js, TypeScript, Supabase, Shadcn UI, and Tailwind CSS
